

# ON TRACK WITH KRISTIAN BRIERLEY 37

## Kristian's on the fast track to fame

### Advertisement feature

**GO-KARTING** sensation Kristian Brierley is on track to compete at a national level next season.

Thanks to the generosity of local businesses who support him, the 14-year-old could be taking part in the British Championships known as Super 1, plus the British 'O'Plate and GP Plate meetings.

Kristian has made rapid progress in the sport since he first started racing karts when his friend's dad, Dean of Steele's Removals, invited him to a day out at Rowrah Kart Club along with his own son Jake. He was instantly bitten by the bug, and wanting more he persuaded his dad to take him again ... and again.

A motorsport fan himself, Mark was more than willing to oblige.

Mark added: "Kristian's passion for the sport really grew, and although the thrill of racing is hard to beat, he has been encouraged to get involved in all aspects of the sport and his mechanical and engineering skills have really developed."

"He is a real help when preparing and setting up the kart for the race meetings."

Back in 2010 the Association of Kart Racing Schools (ARKS) introduced a Scholarship scheme

and asked for 'Let's Go Karting' centres across the country to nominate youngsters that had enjoyed the taster sessions so much that they wanted to get into racing full-time.

Kristian was nominated by the club and after a shoot-out at Bayford Meadows in Kent, he was chosen for the scholarship and received a complete outfit for a year to race and gain his MSA licence.

Since then, Kristian has gone on to gain his National A licence; moved up from the Cadet class to junior class (11-17 year-olds) and continues to serve an apprenticeship. He is currently leading the club championship at Rowrah and with just one meeting to go the Askam youngster is hoping to stand on the top step of the podium as the 2013 formula junior TKM champion.

Kristian would like to say a big thank-you to everyone who has sponsored him for the upcoming 2014 season.

'Let's Go Karting' days are put on throughout the year at Rowrah, so youngsters can try out the sport without any major outlay. There is a nominal charge of £5 a session, which includes all safety equipment too.
